MARYLAND TRANSIT ADMINISTRATION

DIESEL EXHAUST FLUID-DEF (UREA)

February 2017

1.0 Scope of work

1.0 SCOPE OF WORK This Specification outlines the requirements to furnish and deliver bulk Diesel Exhaust Fluid-DEF (UREA) to MTA locations as specified herein. 2.0 TECHNICAL DATA Diesel Exhaust Fluid (DEF): The Diesel Exhaust Fluid shall be AUS 32 (Aqueous Urea Solution 32.5%) designed specifically for use in Selective Catalytic Reduction (SCR) systems to reduce emissions of oxides of nitrogen (NOx) from diesel engine transit buses. 2.1.1 The Diesel Exhaust Fluid shall meet the requirements as outlined in the specifications section of Cummins Service Bulletin No. 4021566, latest revision. The urea content of DEF solution shall be 32.5 percent +/- 1.5 percent by weight. DEF shall meet ISO 2224-1, latest revision, for diesel engines and certified by American Petroleum Institute (API). 2.1.2 The product shall be safe to handle, non-explosive, non-flammable, nontoxic, non-polluting, stable, colorless, biodegradable and composed of urea and water. 2.1.3 DEF shall have a minimum shelf life of (12) months from the time of delivery. Tanks are located indoors at each location. The DEF shall be compatible with equipment installed on Cummins manufactured diesel engines with SCR systems and for the applicable model year. 2.1.5 Agricultural grade urea mixes shall not be acceptable on this contract and do not meet Cummins Engines Inc. Specification. 2.2 General Requirements: Compatibility: All equipment that is used for the storage, handling and the delivery of DEF shall be made from compatible materials and shall meet ISO 22241-3, latest revision. Authority's DEF storage tanks are a closed fill type storage system equipped with a stainless steel (2) two-inch cam-lock coupler located on the table mounted fill tube. A locking cap is used to seal the system and prevent contamination.

DIESEL EXHAUST FLUID (DEF) SPECIFICATION

The Maryland Department of General Services, Procurement and Logistics Division is soliciting proposals for **A Comprehensive, Solutions Based Contract Covering the Supply and Distribution of Diesel Exhaust Fluid**. The Department of General Services – Procurement & Logistics Division desires to:

- 1) Obtain the lowest possible cost for the products and services described
- 2) Supply and Deliver refill tanker services to four (4) MVA Facility Locations

MTA FACILITY LOCATIONS

Bush Division – 1515 Washington Blvd. Baltimore MD. 21230
Kirk Division – 2300 Kirk Ave. Baltimore MD. 21218
Eastern Division – 201 Oldham St. 21224
North West Division – 4401 Mt. Hope Dr. 21215

TANKS:

One 2,000 gal. tank
One 1,000 gal. tank
One 1,000 gal. tank
One 1,500 gal. tank

The Diesel Exhaust Fluid (DEF) refill tanker service covers the MTA's requirements for summer and winter seasons with an estimated total use of 75,000 gallons annually. This quantity is an estimate only and should not be considered a minimum or maximum guarantee. Actual quantities of each type shall be based on the needs of the MTA. DGS reserves the right to add other tanker facilities if systems requires.

- 3) Supply and Deliver bulk prepackaged Diesel Exhaust Fluid to the Maryland Statewide Fuel Dispensing and Management System (MSFDMS)

**** See Part II Section 3 for specific locations****

I. MTA FACILITY

SECTION NO. 1 SPECIAL CONDITIONS:

The four MTA bus maintenance divisions will continually receive DEF shipments. The necessary DEF amount may increase during the contract period as new buses are placed in service.

Periodic testing of fluid samples will monitor compliance with specified performance properties of the fuel.

A preprinted Bill of Lading is to be provided with each load of fluid.

SECTION NO. 2 TECHNICAL PERFORMANCE SPECIFICATIONS:

Diesel Exhaust Fluid is a manufactured product of technically pure urea mixed with demin quality water designed to meet the specifications of DIN 70070:2005 and ISO 22241-1:2006 for NOx abatement technologies. DEF shall be certified as a Diesel Exhaust Fluid by the American Petroleum Institute.

Chemical and Physical Analysis	
Parameter	Value
Urea Concentration	31.6 – 33.4 %
Specific gravity at 20° C	1.08 – 1.14 kg/m3
Refractive index at 20° C	1.3814 – 1.3843
Free Ammonia (alkalinity)	0.2% max
Biuret	0.3% max
Formaldehyde	None
Insoluble matter	20 ppm max
Phosphates	0.5 ppm max
Calcium	0.5 ppm max
Iron	0.5 ppm max
Copper	0.2 ppm max
Zinc	0.2 ppm max
Chromium	0.2 ppm max
Nickel	0.2 ppm max
Aluminum	0.5 ppm max
Magnesium	0.5 ppm max
Sodium	0.5 ppm max
Potassium	0.5 ppm max
Water quality	Demin—ISO 3696 applicable

SECTION NO 3 DELIVERY CONDITIONS:

The Contractor shall be responsible for the performance of all delivery personnel, whether the Contractor employs them directly or by sub-contract.

All vehicles used in delivering product, Contractor's or common carrier, shall be in good repair and operated by trained personnel.

Delivery shall be made Monday through Friday, except holidays, between 8:00 A.M. and 3:00 P.M. unless otherwise requested by the base Superintendent. The driver will report to the MTA Superintendent's office before dropping any product. An MTA employee may sample the fluid in the tank before and after product delivery. The second reading shall be taken at least 5 minutes after the delivery to allow product to settle. The driver will get the delivery ticket signed by the Maintenance Superintendent or his designee. The driver shall cooperate with fluid sampling.

MTA reserves the right to augment scheduled deliveries by requesting additional delivery. Additional deliveries shall be made before 3:00 P.M. the morning after the request is made. A scheduled delivery may be cancelled by the base Superintendent or designee canceling delivery the day before scheduled delivery.

Ticket shall show the type of fluid, the gross gallons of fuel at the temperature at which the fuel leaves the rack. The product temperature and API specific gravity shall be shown on the ticket. Tickets shall show the facility to which the fuel was delivered.

The Contractor shall be responsible for any incorrect deliveries. In such an event the Contractor will be responsible for emptying, cleaning and refilling all affected tanks. Contractor shall also be responsible for disposal of the contaminated fluid in a manner consistent with all applicable local, state and federal laws and regulations. Contractor shall also be responsible for any damage done to MTA equipment by use of the contaminated fluid.

SECTION NO. 4 CONTRACT DETAILS:

The DGS may terminate any contract without showing cause upon 30 days written notice to the Contractor.

Bid prices to be based on the OPIS (Baltimore) report. Price bid per gallon delivered includes all related costs.

II. Supply and Deliver bulk prepackaged Diesel Exhaust Fluid to the Maryland Statewide Fuel Dispensing and Management System (MSFDMS)

SECTION NO. 1 SPECIAL CONDITIONS:

The Contractor shall be responsible for the performance of all delivery personnel, whether the Contractor employs them directly or by sub-contract.

All vehicles used in delivering product, Contractor's or common carrier, shall be in good repair and operated by trained personnel.

SECTION NO. 2 TECHNICAL PERFORMANCE SPECIFICATIONS:

Diesel Exhaust Fluid is a manufactured product of technically pure urea mixed with demin quality water designed to meet the specifications of DIN 70070:2005 and ISO 22241-1:2006 for NOx abatement technologies. DEF shall be certified as a Diesel Exhaust Fluid by the American Petroleum Institute.

Chemical and Physical Analysis	
Parameter	Value
Urea Concentration	31.6 - 33.4 %
Specific gravity at 20° C	1.08 - 1.14 kg/m3
Refractive index at 20° C	1.3814 - 1.3843

DEF Product: Price includes delivery charges
 Area: State of Maryland (outside metropolitan area)
 Product: Packed DEF, 1 Pallet Minimum
 Sizes: Packaged product, Jugs, Drums, Totes

Pallet Samples

2.5 gal jugs x 72 jugs/pallet: \$ _____ (jug/DEF) [per gallon] Includes delivery.
 55 gal drums x 4 drums/pallet: \$ _____ (drum/DEF) [per gallon] Includes delivery.
 275 gal tote x 1 tote/pallet: \$ _____ (tote/def) [per gallon] Includes delivery.
 330 gal tote x 1 tote/pallet: \$ _____ (tote/def) [per gallon] Includes delivery.

SECTION NO. 3 DELIVERY CONDITIONS:

Delivery shall be made Monday through Friday, except holidays, between 8:00 A.M. and 3:00 P.M.
 DGS-P&L reserves the right to augment scheduled deliveries by requesting additional delivery.
 Additional deliveries shall be made within three business days after making the request.

The contractor is required to alert fuel site locations 24 hours prior to the delivery. Following delivery a delivery ticket date/time stamped must be transmitted via email to the appropriate State Agency fuel liaison.
